Flexible Business Engagement Models

Dedicated Hire

- **Flexibility :** Seamless integration with your team.

- **Skilled Developers :** Up-to-date and dedicated experts.

- **Cost Efficiency :** Pay only for actual hours worked.

- **Timely Delivery :** Projects completed on time.

- **Productivity Boost :** Efficient task management.

- **No Extra Costs :** We provide all necessary resources.

- **24/7 Support :** Always available for assistance.

Fixed Model

- **Requirement Finalization:** In the fixed model, all project requirements are locked in before the development begins.

- **Business Analysis:** Our Business Analysis Team thoroughly reviews the requirements to ensure clarity and precision.

- **Time & Cost Estimates:** Based on the analysis, we provide an accurate timeline and cost estimate for the project.

Working Model

- **Real-Time Tracking :** We track time spent on tasks in real-time. Developers work on an hourly basis, and clients are billed based on the actual hours worked at the agreed-upon rate.

- **Project Management :** We manage the project using tools like Asana, Jira, and Trello, ensuring transparent tracking and organized progress throughout the development process.
